

What we do

Our regulatory affairs experts ensure the appropriate licensing, marketing and regulatory compliance of electronic communication operators. Combining knowledge of business issues and best practices, guidelines and regulatory requirements, they advise on and co-ordinate the required approvals and registrations related with electronic communication services, litigations, interconnection agreements negotiations. Regulatory affairs experts are the crucial link between the operator, its services and regulatory authorities, such as ANRCTI (National Regulatory Authority for Communications and Information Technology), MCTI (Ministry of Communication and Information Technology) , Competition Council, CNA (National Audio-Visual Council), ANSPDCP (National Supervisory Authority for Personal Data Processing), etc.
